

For well over 60 years, the name Tandberg has been associated with flawless, faithful sound reproduction. Whether the components were professional grade reel-to-reel tape recorders, audiophile-quality cassette decks or high-end electronics, Tandberg invariably established new standards of excellence.

The new 4000 Series continues this unbroken tradition. The unique, stackable, top-loading transport of the CD Player, the Pro Negative Feedback and Discrete Class A circuitry of the Control and Power Amplifiers, the Dual Gate MOSFET and Class A circuitry of the FM Tuner are packaged in a museum-grade, fully remote-controllable system as pleasing to use as it is to view.

Tandberg achieves the best of both worlds by integrating old world craftsmanship, world class industrial design and the best audio technologies. In the process, Tandberg has once again created audio components that transcend traditional hi-fi to become one of your most prized possessions.

What keeps us in the foreground is our background.

TANDBERG

Much more than hi-fi.
